mm_menu.js		Ø	т	0	30.7 Kb	
🗖 💼 mv.html		0	Т	0	4.3 Kb	

2: Add a CS555 folder.

Inside the CS555 folder, add a folder for each lab:

- Lab1
- Lab2

Lab3...

Note: Some servers are case-sensitive.

It is recommended that you use all lowercase letters when naming folders and files to avoid linking issues with JavaScript and CSS.

Also note: You should not use spaces in the names of your folders and files,

as some browsers convert spaces to %20, and that could cause confusion or even problems for your links.
